The Rockingham County Opioid Task Force was developed to address the current opioid epidemic issues in Rockingham County. The Task Force incorporates community partners into a comprehensive multi-sector response with approaches that include prevention and education, treatment recovery, seeking innovative ways to help individuals and families impacted by a substance use disorder, and ways to support our law enforcement. For more information or to get involved, please contact Felissa Ferrell, Rockingham County Opioid Task Force, Chair, at 336-342-1394.

A HUGE Thanks to Our Sponsors!
